

Surajudeen Akande

SOFTWARE ENGINEER

+2348037690966 | sirolad@gmail.com | Lagos, Nigeria

PROFESSIONAL SUMMARY

I have 4 years professional experience as a Software Engineer working on different projects like improving a job listing platform by improving its payment options and building a feed ingester making our data sharing between business partners seamless, scaling an SMS reseller based system to accommodate heavy traffic and bigger requests, integrating dozens of business critical APIs, working on growth of an Online based Learning Management System , automating a lot of B2B processes and improving payment options. Leading and mentoring junior colleagues to deliver on business requirements etc.

My strongest strength is relationship building, I am more passionate about the people I work with much more than the what I do, because I believe that the best teams can make something great out of the shittiest tool.

Outside work, I am very passionate about Public Speaking and a better world advocate, wherever I find myself.
